MEMORANDUM

Subject: **NetHail for Windows NT® and Year 2000 problem**

Applies to versions: **1.31, 1.40 or later**

Date: **December, 2000**

NetHail for Window NT® utility and Y2K problem

NetHail for Windows NT® utility does not depend on any time or date functions. Therefore it should not be affected by the "Year 2000 problem".

Nevertheless, both versions 1.31 and 1.40 were tested for the problems January 1st, 2000 and February 29th, 2000. Both versions of the program did continue to work properly after computer's internal clock switches to the January 1st and February 29th of the year 2000.

Conclusion: As long as the computer and the operation system on this computer will not be affected by the problem Year 2000, the NetHail for Windows NT® utility is compliant to Y2K and will continue to function properly.

Information: To be sure that your computer is Y2K compliant contact the manufacturer of your computer or BIOS software. Use Microsoft guidance to check your operation system for the Y2K problem:
